

# SAVING ENERGY IN EVERY ROOM

From adjusting in your behavior to replacing old equipment, you can find ways to decrease your home's energy bills and your environmental impact.

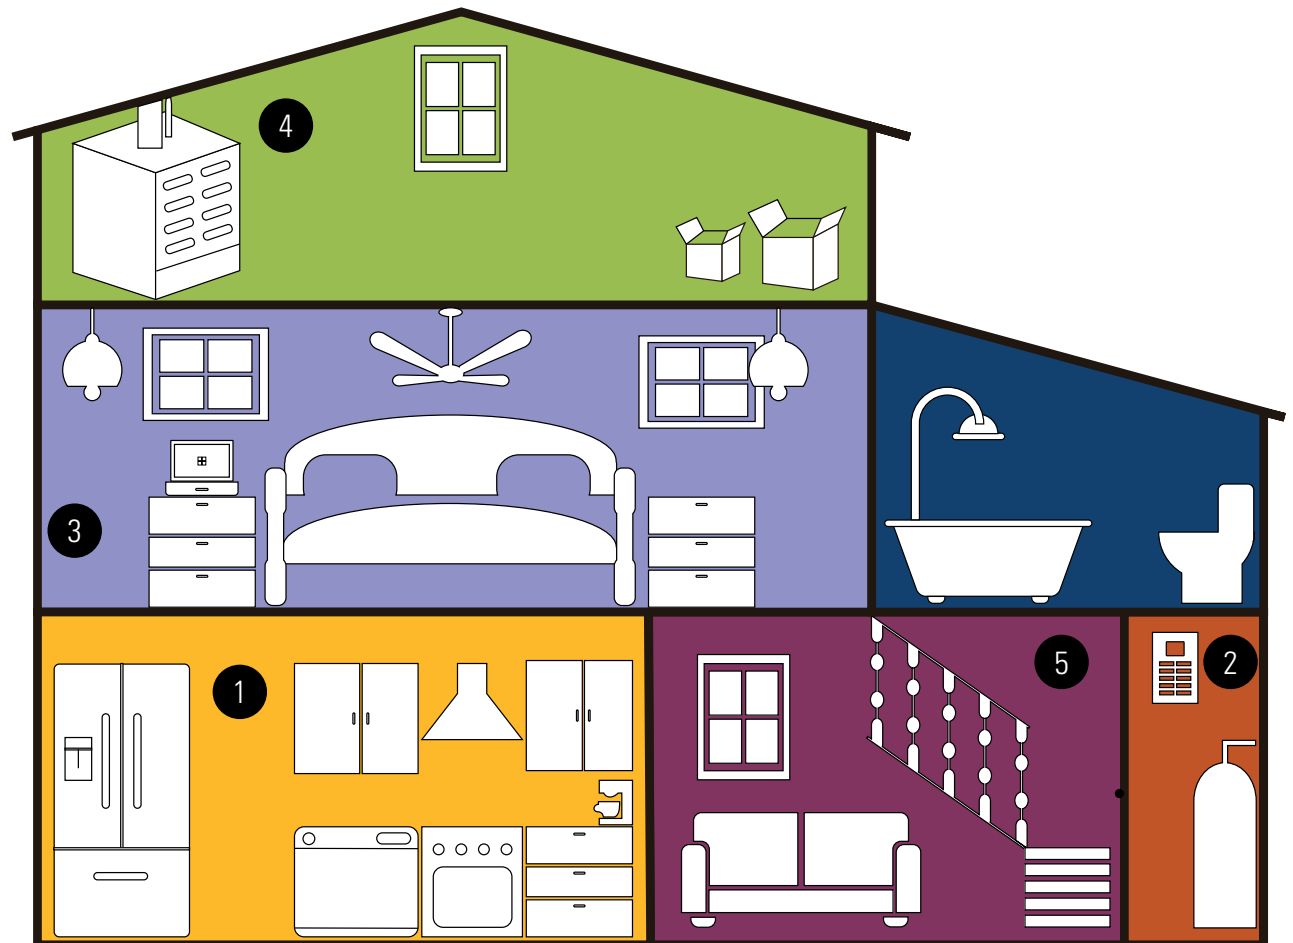

## Explore Opportunities

The best place to start is with by conducting a home energy audit to help you identify ways to optimize your home's efficiency and set you on the path to lower energy bills and a more comfortable, efficient home.

No matter what utility provider you have, turn the page to find opportunities for every room in the house.

 Opportunities for Xcel Energy customers will be denoted with this symbol.

 Opportunities for United Power customers will be denoted with this symbol.

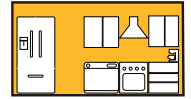

# Great ideas for saving energy and money

Whatever size your project, there are opportunities to integrate energy efficiency. Below are a few ideas to get started.

## 1 Kitchen

- Recycle your old, working refrigerator and earn credit.
  - ⓧ Visit [xcelenergy.com/Fridge](https://www.xcelenergy.com/Fridge) to receive \$50.
  - Ⓟ Visit [unitedpower.com/appliances](https://www.unitedpower.com/appliances) to learn more.
- Choose ENERGY STAR® certified appliances. Visit [energystar.gov/products](https://energystar.gov/products) to learn more
  - Ⓟ Receive \$20-\$30 in rebates for new Energy Star Refrigerators, Freezers, and Dishwasher. Visit [unitedpower.com/appliances](https://www.unitedpower.com/appliances) to learn more.

## 2 Utility Room

- Upgrade to high efficiency heating systems, hot water heaters, and air conditioners.
  - ⓧ Receive rebates for high efficiency heating systems, hot water heaters, and air conditioners. Visit [xcelenergy.com/HomeRebates](https://www.xcelenergy.com/HomeRebates) to learn more.
  - Ⓟ Receive rebates for energy efficient heat pumps, electric heating systems, hot water heaters, and air conditioners. Visit [unitedpower.com/rebates](https://www.unitedpower.com/rebates) to learn more.
- Choose ENERGY STAR® certified appliances. Visit [energystar.gov/products](https://energystar.gov/products) to learn more.
  - Ⓟ Receive \$20-\$30 in rebates for new Energy Star clothes washers. Visit [unitedpower.com/appliances](https://www.unitedpower.com/appliances) to learn more.

## 3 All Rooms

- Upgrade lighting to LED bulbs.
  - ⓧ Visit [xcelenergy.com/LightingDeals](https://www.xcelenergy.com/LightingDeals) to find local retailers offering discounted bulbs.
  - Ⓟ Recycle CFLs and household shaped fluorescent bulbs for free at any United Power office location. Visit [unitedpower.com/lighting](https://www.unitedpower.com/lighting) to learn more.
- Install power strips, occupancy sensors, and/or timers so that your lighting and devices aren't using energy while you're asleep, are away at work, or not using certain rooms.

## 4 Attic & Exterior

- Seal uncontrolled air leaks and reduce drafts with insulation and air sealing improvements.
  - ⓧ Visit [xcelenergy.com/HomeRebates](https://www.xcelenergy.com/HomeRebates) to learn more about insulation rebates.
- Adding a blower door or infrared audit to a Standard Home Energy Audit will help determine if your house leaks air.
- Consider replacing older, drafty windows with newer energy-efficient ones.

## 5 Other Ideas

- Install a smart thermostat to manage your home's heating and cooling comfort costs.
  - ⓧ Visit [xcelenergystore.com](https://www.xcelenergystore.com) to purchase thermostats and many other energy-saving items at a discount.
- Consider installing mini-split heat pumps for zoned heating/cooling when additional ductwork won't work.
  - ⓧ Visit [xcelenergy.com/HomeRebates](https://www.xcelenergy.com/HomeRebates) to learn more.
